Thank you for your Purchase!

How to Use:

1. Download: Instantly download the products after purchase into your own Canva account.

2. Edit: Personalize the products with your branding and covers.

3. Resell: Utilize the MRR license to sell the products to others and keep the profits.

Click here to download this template in Canva
- it contains all the links done for you.

To remove my name from the share links, start creating your own links by:
Open a planner in your own account > go to Share button > choose "Template Link" > Copy that link and change the text link from mine to your new one for each product listed in this document.

I understand this will take some time, so it is ok to leave my name there for now so you can get this bundle up for sale quickly.

Over time work on your own mini bundles and update links as you get to them.
